Initial _____

+1 Access Service Option

This option allows Iridium customers to have a "U.S" phone numbers so people calling them won't be charged international calling charges. The calling party pays any long distance to the area code assigned and you will pay the appropriate airtime rate for the plan you selected for all satellite airtime. You will, however, avoid the international toll rate charged by your long distance carrier (for calls to country code 8816) which can often be several dollars per minute.

___ +1 Access Service \$ 8.95 / Month plus \$1.95 per Min.

Due to network structure, data is not available with the +1 Access service. The +1 Access service is currently not available to prepaid subscribers.

Two stage dialing option

The two-stage dialing option also avoids international toll charges from your long distance carrier for calls to your Iridium phone. This option is more affordable for the person dialing to the Iridium phone, but will cost the Satellite phone subscriber \$1.95 per minute. To place these calls first dial the Arizona Iridium gateway at 480.768.2500. This will be considered a long distance call for the person calling from the US. Once dialed the voice prompt will welcome you and ask for the Iridium number you would like to call. At this point you will dial the 12 digit Iridium number you would like to call. After entering the number, be patient and the phone call will eventually go through. This option is available without any monthly fee to all customers, and you need not check the option at the left.

Keep in mind that the phone call will only go through if the satellite phone being called is outside, turned on and receiving signal. If the Satellite phone is not receiving a signal from the satellite network than any voice calls to that phone will be sent to voicemail. If you leave a voice mail on the Iridium phone, the subscriber to that phone will be notified the next time the phone is registered on the Iridium network.

SMS Service – The Iridium "Short Messaging Service" is available via the internet, and allows your friends and family to send your Iridium phone text messages of up to 160 characters at a time by simply going to the GMPCS website and clicking on the "SMS Service" button, then clicking on the Iridium logo. The text message is free for anyone sending messages to your phone. Sending text messages from your iridium phone will cost 50 cents per text message you send, but are free to receive. If you are on a prepaid plan: the Sim card will burn at a rate of 30 seconds per text message.

Note: Calling Other Satellite Terminals: "Iridium to Iridium" calls are billed at \$0.99 per Minute. Calls to other satellite terminals (not on the Iridium satellite network) will be billed at a flat rate of \$14.20/minute.

Deposits will be refunded at service or contract termination.

(9) Foreign Credit Cards: Foreign credit cards will be accepted only after a complete verification has been done with the issuing bank. The issuing bank must contact the credit card holder and confirm the authorization for the charge to be approved. Verification of foreign credit cards may delay order processing for up to 72 hours. The deposit requirements in (8) above will still apply. GMPCS reserves the right to decline any credit card transaction.

(10) Non-Payment / Breach: A late charge of the lesser of 1-1/2% per month will be applied to each of Customer's service bills not paid by the due date. This late charge is applicable to the unpaid balance as of the due date. Customer shall pay GMPCS all costs including, without limitation, reasonable attorney fees, the fees of any collection agency, and any other costs incurred by GMPCS in exercising any of its rights under the Agreement.
